Jeff Snyder, Jericho, VT INCUMBENT

The last three years I have served as a PRO board member for the Northeast region. I would like to to continue to serve as I have gained a vast knowledge of the inner workings of the BFA and the PRO division which will help the efforts going forward be more productive. As I make my living flying balloons and will be doing so for the next 20-25 years, I am quite concerned with the current state of affairs within our industry respective to safety and pending regulations.

I would like to continue working on logical and realistic safety parameters to make our industry safer and more professional.
